CONSENT

UNDERSTAND that HyperMED is a private non hospital facility. AGREE I attend HyperMED as a private patient

UNDERSTAND treatments and therapies provided by HyperMED Australia are novel and unique and subject of continuing medical and scientific debate. Hyperbaric Oxygenation and Lokomat treatment are not currently accepted by the bulk of the medical profession in Australia for the majority of the conditions listed on the HyperMED website.

UNDERSTAND that NO Medicare or Third Party Insurer 'item code' exists for therapies and consultations provided at HyperMED.

UNDERSTAND that typically NO medical referral will occur unless there is a Medicare or Third Party Item code. Simply stated your local treating medical doctor will NOT refer you to HyperMED.
